PROCEDURE OF PROVIDING LICENSE OF MANUFACTURING, IMITATING AND IMPORTING SPECIAL EQUIPMENT FROM ABROAD

One. General rationale

1.1. In accordance with Article 50.3 of the Law on Police Service, the issuance of a permit for the production, imitation and import of a special device (hereinafter referred to as “Special device”) for the purpose of forcible stopping of individual, multi-person and other special devices and vehicles Follow the procedure.
1.2. The Law on Police Service, Customs legislation and this regulation shall be followed in issuing permits for production, imitation and import of special tools.
1.3. It is prohibited to manufacture, imitate or import special equipment without the permission of the Central Police in accordance with Article 50.3 of the Law on Police.

Two. Licensing and monitoring

2.1. Citizens and legal entities shall submit their requests for production, imitation and import of special tools from abroad to the unit in charge of permits and registration under the central police in the capital city (hereinafter referred to as “Permit and registration unit”) and to the aimag police.
2.2. The following documents and documents shall be received from citizens and legal entities (hereinafter referred to as “Applicants”):

a/ application / period for production, imitation, import and operation of special tools /;

b/ original copy of the state registration certificate of the legal entity, notarized copy;

c/ if a citizen, a copy of his / her ID card and proof of residence;

d/ location, equipment and photographs of the place of operation in case of production or imitation of special tools;

e/ introduction of special-purpose buildings and equipment that meet the safety requirements for the production and simulation of special tools, and premises and equipment for testing of manufactured special tools;

f/ introduction of working personnel;

g/ inquiry on whether the founder or employee of the legal entity has served a sentence.

2.3. The police in charge of the territory shall study the request submitted by the applicant and deliver it to the unit in charge of Permit and Registration within 3 working days.
2.4. The unit in charge of permits and registration shall study whether to issue a permit within 7 days after receiving the materials submitted by the applicant, and if the requirements are met, the permit shall be issued in accordance with Form (Form №-1).
2.5. If the applicant is refused permission due to non-compliance with the requirements for submission of materials specified in 2.2 of this regulation, he / she shall indicate the grounds and respond in writing.
2.6. The unit in charge of licensing and registration shall issue permits to citizens and legal entities to produce, imitate and import special tools from time to time.
2.7. By registering and issuing a permit certificate (hereinafter referred to as “Certificate”), the right to engage in the production, imitation and import of special tools shall be created (Form-1).
2.8. The chief inspector of the unit in charge of permits and registration and the unit in charge of order of the police in charge of the territory shall supervise the production, imitation and import of special equipment and establish a fund.

2.9. Representatives and inspectors of the unit shall be obliged to provide constant support in supervising the production, imitation and import of special tools.
2.10. The Central Intelligence Agency may obtain and use the database specified in 2.8 of this regulation.
2.11. It is prohibited to advertise the production, imitation and import of special tools through mass media

Three. Revocation of the certificate

3.1. The unit in charge of Licensing and Registration shall revoke the certificate for production, imitation and import of special tools in the following cases:

a/ violation of the law;

b/ repeatedly committed a crime or violation by the management or employee of the legal entity, concealed the violation, and did not take action on the violation;

c/ citizens and legal entities have repeatedly failed to comply with requests, liquidations of legal entities, and requirements set by the police and other authorized state bodies in connection with their activities.

3.2. The holder of the certificate shall notify the citizen, legal entity and the relevant tax authority in writing within 3 days after the decision to revoke the certificate.
3.3. Intelligence, Customs and Police shall monitor the activities of citizens and legal entities that produce, imitate and import special equipment.
3.4. If necessary, the activities of citizens and legal entities engaged in the production, imitation and import of special tools may be fully or partially inspected.

Four. Manufacture and simulation of special tools, requirements for import from abroad

4.1. Special equipment shall fully meet the technical norms, rules, standards and safety requirements and shall be certified by the conclusion of the relevant authority and the manufacturer's certificate.
4.2 Special equipment imported from abroad shall fully meet the standards, technical norms, rules and safety requirements of the country of manufacture and shall be certified by the manufacturer's technical specifications.
4.3. Citizens and legal entities that manufacture or imitate special tools shall ensure that they fully comply with the technical specifications and safety requirements of the special equipment.

Five. Customs inspection for special equipment crossing the border

5.1. The unit in charge of licensing and registration shall receive a request to allow special equipment to cross the state border, study it within 7 working days and issue a permit in accordance with Form / Form №2 /.
5.2. A citizen or legal entity who has obtained a permit to allow special equipment to cross the border shall submit the Customs declaration together with accompanying documents to the Customs.
5.3. The Customs shall receive the Customs declaration together with the relevant documents, inspect documents and goods in accordance with the Customs legislation and decide whether to import special means into the territory of Mongolia.
5.4. The Customs shall make a note on the permit for special means crossing the border and attach it to the Customs declaration / Form-2 /.
5.5. The Customs shall submit the “Information on importation of special means across the state border” to the Customs Inspection Unit of the Customs Headquarters by the 30th of each month.

5.6. The unit in charge of Customs inspection shall compile the information and deliver it to the unit that issued the certificate of the Central Police by the 5th of the following month.
5.7. Special means confiscated due to violation of Customs legislation and detained for inspection purposes shall be delivered to the Customs Headquarters and information shall be delivered to the Permit and Registration Unit of the Police.
